Website developer

- Responsible for building, writing high-end reusable code and maintaining the agency’s website.
- Also in charge of all technical decisions and activities in the organization.

Senior/Website developer

- I was entrusted with overseeing the progress of the development team and was also designated to handle all technical aspects of the organization.
- I also worked on the user-interface of the website, helping bring life to the organizations online image.
- Organized and oversaw a meeting with Sterling bank plc which helped seal a contract deal between both parties.

Lead front-end developer

- I led a team of frontend developers to create a user-friendly website.
- As lead front-end developer, I was also charged with managing the site.

Website developer/ Social media manager

- I built and managed the organization’s website.
- With the knowledge I have about social media, I handled the company’s social media accounts. Updating it from time to time based on the information given.

Computer teacher (Vacation job)

- Taught students to understand the basic concepts of computer science.
- Organized a science fair to help the students develop their various scientific skills.
